Up to 42 pages per minute

1200x1200 dpi resolution

7-inch full-color touch panel

Modern devices for businesses of all sizes

Are you concerned about meeting tight deadlines? Are you struggling to manage devices across hybrid workspaces? Is your printer taking too long to digitize paper documents?

Whether you work in finance, logistics or healthcare, printing and document management can quickly become a pain when your business is not equipped with the right technology. In response to increased demand for streamlined workflows, end-to-end security, and hybrid flexibility across various industries, Kyocera has innovated **a robust series of color printers and MFPs: the ECOSYS MA4000cifx Series.**

Designed for small- and medium-sized business, these devices provide **enhanced security features and high-powered scanning capabilities** to improve your organization's work efficiency while keeping costs low.

The full package

Solid data security

All your confidential information is safeguarded with end-to-end security.

Compact design

Maximize your workspace with a minimal footprint.

User-friendly technology

Kyocera's new simplified user interface provides intuitive and easy navigation.

Remote panel support

Easily connect to Kyocera cloud software or your smart device to increase flexibility.

Digitize documents

Enhanced scanning functions with rapid scan speeds, even for non-standard paper, ensure workflow optimization.

Smarter working

Connect your device to Kyocera cloud software or your mobile to increase flexibility.

Eco-friendly innovation

Print using Kyocera's latest ecological toner on energy-efficient devices.

Simple setup and maintenance

Minimize your downtime and maximize your availability.

Maximum data protection with end-to-end security

Security is top of mind for organizations of all shapes and sizes. With cybersecurity threats on the rise, most businesses are increasing their investments and opting for technology that enables smooth integration.

Here at Kyocera, we equip businesses with **advanced technological solutions** that enable safe collaboration across remote teams and low-risk device sharing. Whether you're working at home or in the office, you can rest assured that Kyocera has got you covered.

We provide **enhanced security through a combination of features** including:

Quick Security Setup

+ Provides three preset levels of security protection.
+ Each level configures up to 64 different settings to ensure all required security settings are met.
+ Ensures all ports, filters, access levels, and protocols are set to meet selected security settings.

Document protection

+ **PDF digital signature (for MFPs):** Add a digital signature to a scanned PDF document, supported with many layers of security that make it difficult to forge or tamper with a document.
+ **Card authentication:** To prevent sensitive data from being seen at the printer, you can authenticate the print job directly at the device with an ID card.

Data encryption

+ **SSD Data Security (option):** Overwriting and data encryption ensures secure data processing and storage.

Kyocera Document Solutions has championed innovative technology since 1934. We enable our customers to turn information into knowledge, excel at learning and surpass others. With professional expertise and a culture of empathetic partnership, we help organizations put knowledge to work to drive change.
